Tridia Corporation Becomes Red Hat Ready
Tridia joins the Red Hat ISV Program

Marietta, GA – November 10, 2008 – Tridia Corporation, announced it has become an ISV Partner in the Red Hat Independent Software Vendor (ISV) Program. This is exciting news for the Red Hat Community knowing that Tridia's commitment in supporting the Red Hat Partner Community and Red Hat operating system.

As a Red Hat ISV Partner, the Tridia Corporation will strive to provide continuous improvements and comprehensive and compatible software solutions that meet real-world business challenges. *"The Industry is always changing and evolving," says W. Brian Blevins, Senior Software Development Engineer with Tridia Corporation. "In order to stay ahead of the curve we have to keep our ears and eyes open to improvements and evolve into an organization that keeps up with the demand. Being a part of the Red Hat ISV Partner Program allows us to be Red Hat ready".*

The Red Hat Partner community is designed to encourage the combination of open source and traditional technologies into the fabric of enterprise computing to provide technology solutions that give customers more choice.

About Tridia Corporation

Founded in 1987, Tridia has been the market leader in UNIX, Linux and Windows Remote Control Access Software Solutions for almost two decades. In 2004, Tridia launched iTivity, the first self-hosted software solution for Linux, UNIX, and Windows remote support. iTivity lets IT Solution Providers standardize on a single, secure, affordable solution for accessing and supporting virtually every customer system and device regardless of platform. As a result, these companies can enjoy previously unattainable levels of efficiency, productivity and customer satisfaction.
